MATH WORKSHEET · GRADES 3–4 · MONEY

Saving Up

Divide the price by the weekly allowance. How many weeks until you can buy it? What is left over?

Name: _____ **Date:** _____

Saving for	Price	Allowance	Weeks to save	Left over
a skateboard	**$45**	**$2** a week		
a comic book	**$6**	**$2** a week		
a soccer ball	**$15**	**$2** a week		
headphones	**$30**	**$5** a week		
a board game	**$20**	**$3** a week		
a kite	**$9**	**$3** a week		

Example: a $14 game at $4 a week takes 4 weeks (3 weeks is only $12). You will have $16, so $2 is left over.

Answer Key: Saving Up

Divide the price by the weekly allowance. How many weeks until you can buy it? What is left over?

Saving for	Price	Allowance	Weeks to save	Left over
a skateboard	$45	$2 a week	23	$1
a comic book	$6	$2 a week	3	$0
a soccer ball	$15	$2 a week	8	$1
headphones	$30	$5 a week	6	$0
a board game	$20	$3 a week	7	$1
a kite	$9	$3 a week	3	$0

Example: a $14 game at $4 a week takes 4 weeks (3 weeks is only $12). You will have $16, so $2 is left over.
