Put the Algorithm in Order

Number the steps of two everyday algorithms, brushing your teeth and planting a seed.

Name: _____ **Date:** _____

An **algorithm** is a list of steps in the right order. A computer needs every step, in order, to do a job.

1. Brushing your teeth: number the steps from 1 to 6.

- ☐ Spit into the sink.
- ☐ Pick up your toothbrush.
- ☐ Put the toothbrush away.
- ☐ Brush the top and bottom teeth.
- ☐ Squeeze toothpaste onto the brush.
- ☐ Rinse the toothbrush.

2. Planting a seed: number the steps from 1 to 4.

- ☐ Water it.
- ☐ Dig a small hole.
- ☐ Cover the seed with soil.
- ☐ Drop in a seed.
