Will It Dissolve?

An experiment: predict and test whether seven things dissolve in water.

Name: _____ **Date:** _____

Do it: fill seven clear cups with warm water. Stir one spoonful of a different thing into each cup for one minute, then look. If you cannot see it any more, it **dissolved**.

What I stirred in	I predict it will dissolve: yes or no	Did it dissolve?
salt		
sugar		
sand		
pepper		
flour		
drink mix powder		
rice		

Where did the things that dissolved go?
