Measure with a Ruler

Guess and then measure six things in centimeters and find how close each guess was.

Name: _____ **Date:** _____

Measure it: line up the end of the object with the 0 on your ruler. Read the number where the object ends. Write the answer in centimeters (cm).

Object	My guess (cm)	I measured (cm)	How far off was I?
a pencil			
a crayon			
a glue stick			
my hand			
my shoe			
a book			

Longest thing _____ **Shortest thing** _____
