SCIENCE · HUMAN BODY · GRADES 2–3

Organs and Their Jobs

Fill in the brain, heart, lungs, stomach and bones in five sentences, then draw where your heart is.

Name: _____ **Date:** _____

Word bank

brain · heart · lungs · stomach · bones

Fill in the missing organ.

1. Your _____ pumps blood around your whole body.
2. Your _____ fill with air every time you breathe in.
3. Your _____ thinks, remembers and tells your body what to do.
4. Your _____ mixes up food so your body can use it.
5. Your _____ hold you up and protect your organs.

Draw yourself. Mark your heart with a red X and your lungs with blue.

Put your hand on your chest. What do you feel? What do you hear?
