Water Cycle in a Bag

Tape a bag of water to a sunny window and record what happens for four days.

Name: _____ **Date:** _____

Set it up: draw a sun and a cloud on a zip bag with a marker. Pour in a cup of water and a drop of blue food coloring. Seal it and tape it to a sunny window.

My prediction: I think the water will _____

Day	What I see on the bag	Where is the water now?
Day 1		
Day 2		
Day 3		
Day 4		

Draw your bag on day 3.

Which step of the water cycle made drops on the inside of the bag? What made them slide down?

_____
