Read and Draw: Australia

Read the facts about Australia. Draw something you learned, then answer the questions.

Name: _____ **Date:** _____

Facts

- Australia is the smallest continent. It is also a country. Its capital is Canberra.
- The Great Barrier Reef, off its northeast coast, is the biggest coral reef in the world.
- Koalas, wombats and platypuses live in the wild only in Australia.
- Australia is in the Southern Hemisphere, so its seasons are the opposite of ours. Christmas comes in summer!
- Most Australians live near the coast. The dry middle of the country is called the Outback.

Draw an animal or a place in Australia

1. **What is the capital of Australia?**

2. **What is the biggest coral reef in the world?**

3. **What season is it in Australia at Christmas?**
