Kinds of Maps

There are many kinds of maps. Draw a line from each map to what it shows.

Name: _____ **Date:** _____

Kind of map	What it shows
Road map	Mountains, rivers, lakes and deserts
Weather map	Where many people live and where few people live
Physical map	The rooms inside a building
Political map	Countries, states and the borders between them
Transit map	Train and bus lines and their stops
Floor plan	Rain, snow and how hot or cold it will be
Population map	Highways and streets for drivers

Which map would you use to plan a trip to the beach? Why?
