The Tallest Mountain on Each Continent

Every continent has one mountain that is the tallest. Draw a line from each continent to its mountain, then answer the questions.

Name: _____ **Date:** _____

Continent	Its tallest mountain
Asia	Vinson Massif (16,050 ft)
South America	Mount Everest (29,032 ft)
North America	Aconcagua (22,838 ft)
Africa	Mount Elbrus (18,510 ft)
Europe	Kilimanjaro (19,341 ft)
Antarctica	Mount Kosciuszko (7,310 ft)
Australia	Denali (20,310 ft)

1. **Which mountain is the tallest of all?**

_____

2. **Which of these mountains is the shortest?**

_____

3. **Which mountain is in the United States (Alaska)?**

_____

4. **Which mountain is covered in ice near the South Pole?**

_____
